Those great big fluffy clouds.
Decide where your cloud lives.
Maybe he lives right in here.
Once you learn the technique.
ohhh. Turn you loose on the
world. You become a tiger.

In your world you have total
and absolute power. A tree
needs to be your friend if you're
going to paint him. It's hard
to see things when you're too
close. Take a step back and look.
Everything is happy if you choose
to make it that way.

We'll put all the little clouds in
and let them dance around and
have fun. Each highlight must
have it's own private shadow.

Don't kill all your dark areas.
you need them to show the light.
Anything you want to do you can
do here.

Painting should do one thing.
It should put happiness in your
heart. From all of us here, I want
to wish you happy painting and

God bless my friends. Maybe
there's a happy little Evergreen
that lives here. When things
happen enjoy them. They're
little gifts. Sometimes
you learn more from your
mistakes than you do from
your masterpieces. Isn't that

Don't hurry. Take your time and enjoy. Let's have a happy little tree in here. Don't be afraid to make these big decisions. Once you start, they sort of just make themselves. Everybody's different. Trees are different. Let them all be individuals. The very fact that you're aware of suffering is enough reason to be overjoyed that you're alive and can experience it.

Let's put some happy little bushes on the other side now. Work on one thing at a time. Don't get carried away - we have plenty of time. We wash our brush with odorless thinner. Let the paint work. It's a super day, so why not make a beautiful sky?

We might as well make some *Almighty mountains* today as well, what the heck. You have to make these big decisions. The man who does the best job is the one who is happy at his job. Mix your color marbly don't mix it dead. We'll have a super time. If I paint something, I don't want to have to explain what it is. Follow the lay of the land. It's most important. Work that paint. You can do anything your heart can imagine. See there how easy that is.

I think there's an artist hidden in the bottom of every single one of us. *Think about a cloud. Just float around and be there.* Let's do that again. It's amazing what you can do with a little love in your heart. In your world you have total and absolute power. Van Dyke Brown is a very nice brown, it's almost like a chocolate brown.

Any little thing can be your friend if you let it be. It's almost like something out of a fairytale book. We'll play with clouds today. We spend so much of our life looking - but never seeing.

These little son of a guns hide in your brush and you just have to push them out. Just let your mind wander and enjoy.

We can always carry this a step further. There's really no end to this. There is immense joy in just watching - watching all the little creatures in nature. *I want everybody to be happy. That's what it's all about.* Put it in, leave it alone.

A beautiful little sunset. How do you make a round circle with a square knife? That's your challenge for the day. Nice little clouds playing around in the sky. Little trees and bushes grow however makes them happy. In your imagination you can go anywhere you want.

We don't make mistakes we just have happy little accidents. There are no limits in this world. I thought today we would make a happy little stream that's just running through the woods here. *I'm sort of a softy, I couldn't shoot Bambi except with a camera.* I'm gonna start with a little Alizarin crimson and a touch of Prussian blue We have a fantastic little sky! That's a son of a gun of a cloud. Let your imagination be your guide. The secret to doing anything is believing that you can do it. Anything that you believe you can do strong enough, you can do. Anything. As long as you believe.

If you don't like it - change it. It's your world. Put your feelings into it, your heart, it's your world. This is an example of what you can do with just a few things, a little imagination and a happy dream in your heart. Put light against light - you have nothing. *Put dark against dark - you have nothing. It's the contrast of light and dark that each give the other one meaning.* I will take some magic white, and a little bit of Vandyke brown and a little touch of yellow. This is where you take out all your hostilities and frustrations. It's better than kicking the puppy dog around and all that so. Just beat the devil out of it. Here's something that's fun. Trees cover up a multitude of sins.

Go out on a limb - that's where the fruit is. Anything you want to do you can do here. Nothing's gonna make your husband or wife madder than coming home and having a snow-covered dinner. That's why I paint - because I can *create* the kind of world I want

- and I can make this world as *happy* as I want it. We'll throw some old gray clouds in here just sneaking around and having fun. The little tiny Tim easels will let you down. Almost everything is going to happen for you automatically - *you don't have to spend any time working or worrying.*

We're not trying to teach you a thing to copy. We're just here to teach you a technique, then let you loose into the world. Son of a gun. Get tough with it, get strong. It's almost like something out of a fairytale book. Let's make some happy little clouds in our world. Let the paint work. That's a son of a gun of a cloud. You create the dream - then you bring it into your world. Work that paint. We spend so much of our life looking - but never seeing. With practice comes confidence. But they're very easily killed. Clouds are delicate. These little son of a guns hide in your brush and you just have to push them out. No worries. No

WHOOOP

there it is.
